GRAWE sidebyside 14. Austrian Open – Super World Tour Finals  
20. – 22. 11.2021 in a Corona-Bubble

Due to the ongoing Corona-Crises in the whole of Europe, the only way Austrian Open 2021 can take place is in a Corona-Bubble with a Corona-Prevention concept and corona-tests for Elite Players. The maximum players allowed per Austrian law today is 10 per training group or draw in a tournament. Based on these facts the Racketlon Federation Austria will hold Austrian Open this year as follows. Titled as a professional sports event the tournament will be able to take place 95% probability unless there is a new complete lock-down stopping even professional football, which is very unlikely.

Sports Venue

Racket Sport Center Graz  
Ragnitzstraße 58b  
8047 Graz/Austria

Corona Tests and Bubble

All players must arrive and check in the evening before their draw at the tournament hotel for corona testing. All the organisation team and players are tested before being able to participate. After a negative test they will stay in a Corona-Bubble and may not mix with players of different draws or other people. At the venue the Austrian Open area with all the courts, toilettes and the rest area with food and drinks is isolated from the public. Directly after prize giving of their draw all players may leave the bubble and will be dropped off at airport/train station or elsewhere.
